QUALITY

Quality is at the center of everything we do. It guides our daily activities and our management philosophies. Through our supply of trusted brands that deliver optimum performance and safety combined with the expertise of the Westech team you can be assured your project will be completed on time and on budget. Safety, quality and integrity are the core values that define our work.

Bradley Safety Equipment features an industry-leading assortment of commercial plumbing products in the world. Architects and specifiers look to Bradley for the most innovative products in categories such as:

Wash fountains, Multi-Station Lavatory Systems, Terreon Solid Surface Products, Emergency Eyewash Fixtures and Drench Showers, Electric Tankless Heaters, Commercial Faucets, Commercial & Group Showers, Washroom Accessories, Solid Plastic Locker Systems, Washroom Partitions.

HAWK develops and manufactures level measurement equipment based on different technologies such as, Acoustic Wave, Ultrasonic, Microwave and Radar etc. Products include: Level Transmitters, Positioning Systems, and Flow Meters.

Honeywell Enraf

TERMINAL AUTOMATION

Honeywell Enraf Terminal Automation is directly linked to safety and security, productivity, inventory control, and overall efficiency and profitability of terminal business. Our local support response, coupled with global industrial experience, provide the necessary support to protect your terminal automation system. Products include: Enraf Radar & Servo Tank Gauges, Enraf Calibron Small Volume Provers, Enraf Blending & Injection Systems, and Product Loading Automation.

KROHNE

KROHNE is a world-leading manufacturer and supplier of solutions in industrial process instrumentation. KROHNE's comprehensive product portfolio includes Flow Measurement, Level Measurement, Temperature Measurement, Pressure Measurement, Analysis Instruments, Viscosity Measurement Systems, and Gas & Steam Measurement Systems.

NEPTEC

Technologies Corp

Neptec Technologies Corp. develops and sells innovative 3D machine vision products for terrestrial markets such as mining, oil and gas, construction, defence and security.

- OPAL™ 3D Laser scanner for harsh environments and 3DRi™ Real-time intelligence software
- Operator-assist and machine automation solutions using patented OPAL 3D LiDAR technologies

Since 1935, OILCO Liquid Handling Systems has continued to pioneer and manufacture the most extensive line of swivel joints available to the bulk industries worldwide. The utilization of proven mechanical platforms and increased carrying abilities has allowed OILCO to serve a wide variety of industries such as the petroleum industry, metal manufacturing, dry goods transfer, and 'green' projects centered at domestic water treatment facilities.

SAF Drives Inc.

With a 35+ year history of solving drives and automation problems in a wide range of applications, SAF knows experience minimizes your risk. SAF's proven track record on both new and vintage drive systems routinely generates significant ROI

Southern California Valve was established in 1972 as a maintenance and modification company with the ability to provide full in-line valve service and repair. In the mid-1970's, after experiencing the shortcomings of other valve products in service, SCV manufactured its first valve. Since that time, Southern California Valve has expanded our manufactured products to cover a broad range of valves.

Industries served include the power, paper and pulp, oil and gas, and petro-chemical sectors.

FLAME ARRESTERS

A world leader in research, testing and manufacturing of In-line Deflagration and Detonation Flame Arresters.

- Detonation Flame Arresters

INTEGRATED SOLUTIONS

Westech has the knowledge and experience to provide integrated turn-key system packages for general purpose and hazardous locations.

- Complete solutions for CEM's, ambient air monitoring, process analyzer, sample systems, cabinets, analyzer shelters, validation/calibration systems and sample recovery systems.

ENGINEERING AND DESIGN

As part of Westech's complete package solutions, our in-house team combines critical thinking, creative solutions, and technical expertise to bring high value and efficiency to our projects. We will develop realistic and workable solutions designed to exceed client specifications.

**WESTECH
SERVICE**

With fifty years of experience, the Westech Industrial Service Group is defined by a diverse knowledge base of analytical equipment, process control and instrumentation.

Our greatest value to our customers is our support. Westech provides commissioning, service and support for all of our OEM equipment. We also have the experience and expertise to service and support other manufacturers' analytical and process instruments.

The Westech Industrial Service Group offers:

- In-House / On-Site Commissioning, Inspections, Service, Support & Training
- Telephone Support
- Inventory of Spares & Consumables
- Dedicated Service Coordinators
- Preventative Maintenance Agreements
- System Design and Integration Services
- Technical Consultations
- Electrical testing and third party approvals to CEC for all locations

At the center of our operations, the Stafford service facility provides equipment and trained service personnel for repairing, troubleshooting and refurbishing a broad variety of nuclear gas analysis, moisture, pressure, temperature, control instruments and analyzers. In addition, mechanical services are provided in the form of sample pumps, low pressure tank protection valves and equipment.
