QUALITY

Quality is at the center of everything we do. It guides our daily activities and our management philosophies. Through our supply of trusted brands that deliver optimum performance and safety combined with the expertise of the Westech team you can be assured your project will be completed on time and on budget. Safety, quality and integrity are the core values that define our work.

AMI offers a wide range of High Performance Oxygen Analyzers, O2 Sensors, H2S Analyzers and Oxygen Deficiency Monitors.

Oxygen Analyzers include: Trace Oxygen Analyzers, Percent Oxygen Analyzers, Portable Oxygen Analyzers and Oxygen Deficiency Monitors

Bradley Safety Equipment features an industry-leading assortment of commercial plumbing products in the world. Architects and specifiers look to Bradley for the most innovative products in categories such as:

Wash fountains, Multi-Station Lavatory Systems, Terreon Solid Surface Products, Emergency Eyewash Fixtures and Drench Showers, Electric Tankless Heaters, Commercial Faucets, Commercial & Group Showers, Washroom Accessories, Solid Plastic Locker Systems, Washroom Partitions.

Fort Vale Engineering Limited is the world leader in the precision manufacture of valves and fittings for the transportation of bulk liquids in the tank container, road tanker and rail industries.

HAWK develops and manufactures level measurement equipment based on different technologies such as, Acoustic Wave, Ultrasonic, Microwave and Radar etc. Products include: Level Transmitters, Positioning Systems, and Flow Meters.

Honeywell Enraf

TERMINAL AUTOMATION

Honeywell Enraf Terminal Automation is directly linked to safety and security, productivity, inventory control, and overall efficiency and profitability of terminal business. Our local support response, coupled with global industrial experience, provide the necessary support to protect your terminal automation system. Products include: Enraf Radar & Servo Tank Gauges, Enraf Calibron Small Volume Provers, Enraf Blending & Injection Systems, and Product Loading Automation.

Honeywell UOP | Callidus Technologies

Callidus Technologies L.L.C. are the experts in combustion. They can provide complete solutions for process heater burners, flares, flare gas recovery systems, thermal oxidizers and selective catalytic reduction units (SCR's).

- Flares
- Burners
- Thermal Oxidizers
- Selective Catalytic Reduction Systems

K-PATENTS

PROCESS INSTRUMENTS

K-Patents' operations and resources are focused on various in-line liquid measurements, such as concentration and liquid density measurements. K-Patents supply Process Refractometers that are used in thousands of industrial applications around the world.

- In-line Process Refractometer

KROHNE

KROHNE is a world-leading manufacturer and supplier of solutions in industrial process instrumentation. KROHNE's comprehensive product portfolio includes Flow Measurement, Level Measurement, Temperature Measurement, Pressure Measurement, Analysis Instruments, Viscosity Measurement Systems, and Gas & Steam Measurement Systems.

Neptec Technologies Corp. develops and sells innovative 3D machine vision products for terrestrial markets such as mining, oil and gas, construction, defence and security.

- OPAL™ 3D Laser scanner for harsh environments and 3DRi™ Real-time intelligence software
- Operator-assist and machine automation solutions using patented OPAL 3D LiDAR technologies

Since 1935, OILCO Liquid Handling Systems has continued to pioneer and manufacture the most extensive line of swivel joints available to the bulk industries worldwide. The utilization of proven mechanical platforms and increased carrying abilities has allowed OILCO to serve a wide variety of industries such as the petroleum industry, metal manufacturing, dry goods transfer, and 'green' projects centered at domestic water treatment facilities.

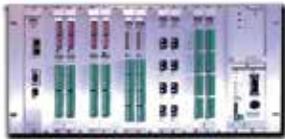

OPW is a leading global supplier of products and systems used for the safe and efficient loading, transfer, handling and unloading of critical fluids, such as crude oil, shale oil, refined fuels, LPG, LNG, bio-diesel, butadiene, corn syrup and a wide array of hazardous chemicals.

OPW offers premium-grade top and bottom loading arms, swivel joints, sight flow indicators, quick and dry disconnect couplers and safety breakaways for use in railcar rack systems and platforms, bulk plant and liquid terminals applications.

Quality Direct-Reading Level Gauges are the simplest, most reliable way to determine the level of liquid in a tank or vessel. This allows the user to have a direct view of their process without compromising the integrity of your process system. Quality Level Guages meet several quality standards and are approved for the petro-chemical and power industries.

- Level Gauges
- Gauge Cocks
- Magnetic Gauges
- Pressure Gauges
- Temperature Gauges
- Switch Flows

With a 35+ year history of solving drives and automation problems in a wide range of applications, SAF knows experience minimizes your risk. SAF's proven track record on both new and vintage drive systems routinely generates significant ROI

Southern California Valve was established in 1972 as a maintenance and modification company with the ability to provide full in-line valve service and repair. In the mid-1970's, after experiencing the shortcomings of other valve products in service, SCV manufactured its first valve. Since that time, Southern California Valve has expanded our manufactured products to cover a broad range of valves.

Tuthill PUMP YOUR HEART INTO IT

Whether it is for agriculture or energy, Tuthill offers diverse products that are solidly engineered, competitively priced and can take on almost any application with durability, precision and excellence.

- Pumps
- Meters
- Vacuum Pumps
- Blowers
- Plastics

FLAME ARRESTERS

A world leader in research, testing and manufacturing of In-line Deflagration and Detonation Flame Arresters.

- Detonation Flame Arresters

INTEGRATED SOLUTIONS

Westech has the knowledge and experience to provide integrated turn-key system packages for general purpose and hazardous locations.

- Complete solutions for CEM's, ambient air monitoring, process analyzer, sample systems, cabinets, analyzer shelters, validation/calibration systems and sample recovery systems.

ZWICK ARMATUREN GMBH

ZWICK is a leading manufacturer of valves which meet highest requirements and quality standards. The product range contains metal-seated butterfly valves known as series TRI-CON, the check valves series TRI-CHECK and the TRI-BLOCK series, ZWICK's Double Block and Bleed Design.

**WESTECH
SERVICE**

With fifty years of experience, the Westech Industrial Service Group is defined by a diverse knowledge base of analytical equipment, process control and instrumentation.

Our greatest value to our customers is our support. Westech provides commissioning, service and support for all of our OEM equipment. We also have the experience and expertise to service and support other manufacturers' analytical and process instruments.

The Westech Industrial Service Group offers:

- In-House / On-Site Commissioning, Inspections, Service, Support & Training
- Telephone Support
- Inventory of Spares & Consumables
- Dedicated Service Coordinators
- Preventative Maintenance Agreements
- System Design and Integration Services
- Technical Consultations
- Electrical testing and third party approvals to CEC for all locations

At the center of our operations, the Stafford service facility provides equipment and trained service personnel for repairing, troubleshooting and refurbishing a broad variety of nuclear gas analysis, moisture, pressure, temperature, control instruments and analyzers. In addition, mechanical services are provided in the form of sample pumps, low pressure tank protection valves and equipment.
